

ACI CSA Standards Concrete Field Testing Technician 2026 Certification Sessions

The Manitoba Chapter of the American Concrete Institute (ACI) is offering two 3-day sessions for the ACI CSA Standards Concrete Field Testing Technician program on April 22-23-24 and June 3-4-5, 2026. Join the more than 1,000 Manitobans who have satisfied the CSA Standard's requirement for field testing personnel certification (A23.1:24 clause 4.4.1.7).

Each session includes an optional review of the seven CSA Test Methods included in this ACI certification program: sampling plastic concrete, temperature of freshly mixed concrete, slump of concrete, air content of plastic concrete by the pressure method, making and curing concrete test specimens, slump flow of concrete, and density and yield of plastic concrete. Each session will also include the written and performance ACI examinations.

The 3-day sessions are offered at the following times and location:

WHEN: ~~April 22-23-24, 2026 (Option 1)~~
June 3-4-5, 2026 (Option 2)
WHERE: Red River College Polytech, 2055 Notre Dame Ave, Winnipeg, MB

The instructor and Examiner will be Guillaume Beauce, P Eng., Certification Lead for the ACI Manitoba Chapter.

Who Should Attend? Personnel who perform concrete testing on project sites, in the laboratory or in the plant, must be certified to satisfy CSA's requirements. Certification is also recommended for engineers, supervisors, inspectors, and contractors who plan for and review concrete testing programs.

A copy of the *ACI CSA Standards Concrete Field Testing Technician Workbook* will be provided to each participant for use in home study prior to attending the session (shipping address to be provided on registration form).

Participants who are successful on the written and performance examinations will earn the designation of *ACI CSA Standards Concrete Field Testing Technician*. This certification is valid for five years.

Those seeking re-certification may only attend the examination portions of the session on either April 24 or June 5, 2026. It is not a requirement to attend the review portions of the session; however, this option is available to all who wish to refresh their knowledge and skills.

Please e-mail this registration form to certification@acimanitoba.ca. Registrations will be confirmed upon receipt of payment on a first-come, first-served basis.
